

Preferred Behavioral and Mental Health Providers

Attention Parents: It is ultimately your responsibility to verify that the specialist to whom we refer your child is a provider of your insurance plan. Please call the 800 number listed on your insurance card to both verify your mental health benefits and obtain a listing of the providers in your network. Feel free to contact one of our referral coordinators with any questions. **Please note that some Nationwide Children's Hospital facilities will require a referral from our office prior to an appointment being scheduled.**

You can now contact us directly via telephone or email:
